OBJECTIVE: Water/Wastewater Operations or Manager Position

I have run 1-Mgd lagoons system to 27-Mgd Activated Sludge Plant and 1.9 Mgd high tech US Filter Plant to a 30 Mgd Water plants.

A Operator: Recently was working full-time in southern Colorado at Ft. Carson. We run an 8-Mgd Wastewater plant, water system, and Industrial wastewater plants. 2004 and 2005.

Water& Wastewater

Class A Wastewater and Water operator. A Food Plant is a high tech plant with a Biological Nutrient Removal system. Processes of nitrification and denitrification ammonia process removal system. Toolset data systems, Andover control systems, plus other SCADA and PLC, s systems are used for operations, process control testing and data entry Working knowledge of DMR, NPDES, OSHA and all regulatory requirements. In charge of the Biosolids, land application program. Planning and budgeting for cost effective operations. Exceptional foresight and analytical ability to develop and execute operating procedures. Results orientated, utilizing exceptional organizational and supervisory skills to prioritize, delegate and ensure completion of multiple tasks in a timely manner.

City of Aurora - Senior A Operator

Made all the process control decisions. Monitoring of SDCDA computer systems, which monitored the lift stations water, re-use reservoirs and the storm water overflow system. Monitoring of the plant operations and process control testing.

Oak Valley Farms Water and Wastewater Supervisor

Completely turned the plant around. This plant had zero violations within 2 years. Hired and trained a staff of six people. Good communication with State DENR, Watertown pre-treatment coordinator, EPA, consulting engineers and various contractors.

City of Buffalo Wyoming

Chief Operator of Wastewater

Ran a 5-cell lagoon system. Three lift stations. Backup generator systems. Rehabilitated the CL2 systems. Saved the city over \$30,000 a year due to operational changes to the blower systems. I was on Call for water plant and other city services such as snow plowing and leaks.

EDUCATION

Front Range Community College AAS in water and wastewater management University of Nebraska BS in criminal justice and business

Licenses: Wyoming Class IV Water and Wastewater
Colorado A Wastewater Colorado C Water
Colorado Level II Collections and Distribution

Awards EPA Region VIII Best Small Advanced Plant 1993
